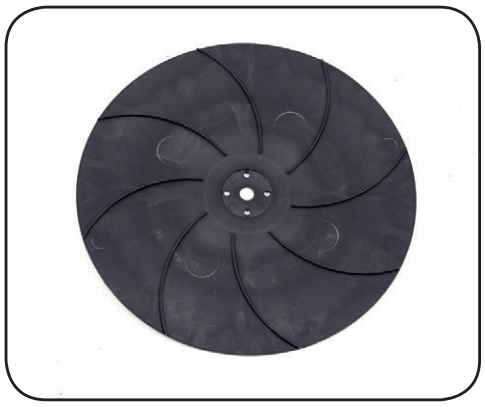
ACCESSORI | *Accessories*

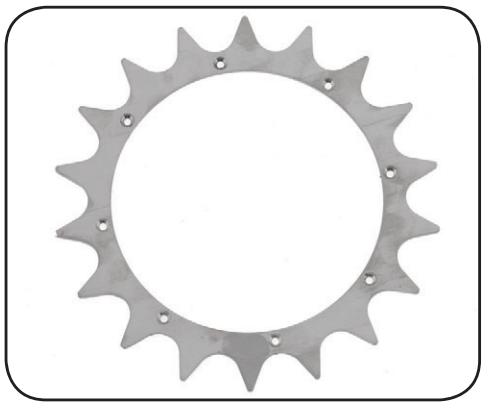


Disco pulente

Da applicare sulla lama per mantenere maggiormente pulito il sottoscocca.

Cleaning disc

It can be installed on the blade to keep the undercover cleaner.



Artiglio ruota Soft (Solo Linea L200)

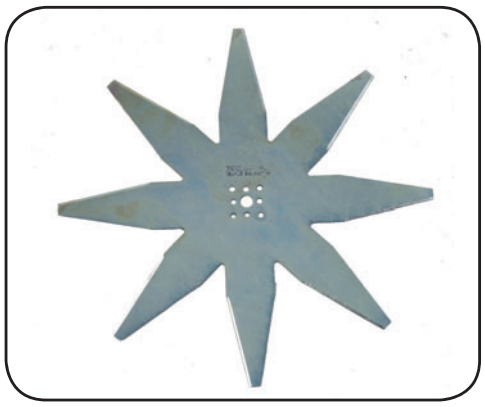
Questo accessorio da applicare alla ruota originale permette di aumentare il grip laddove vi siano leggere pendenze

NB: è sconsigliato dove vi siano dei passaggi mattonellati in quanto la sua dentatura potrebbe provocare segni su di esse.

Soft wheel spike (only for L200)

It can be mounted on the standard wheel to improve the grip in case of slopes.

NB: it is recommended not to use it on tiled path, since it can leave tracks on it.

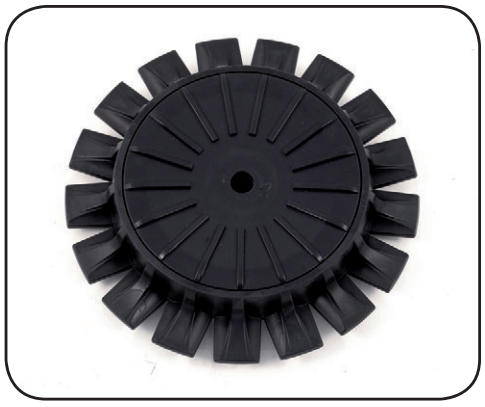


Disco di taglio Ø 290mm a 8 punte

Indicato per i primi tagli di stagione o per condizioni di prato che richiedono una potenza di taglio maggiore.

290mm blade with 8 teeth

Specially for the opening season or in case of particular conditions of the lawn that require a higher cutting power.

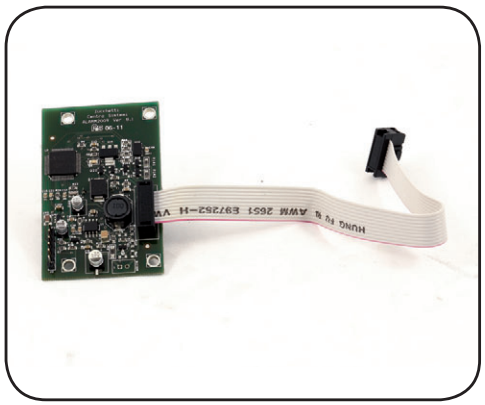


Ruote di diametro maggiore per L50

Permettono di alzare l'altezza di taglio di 8 mm.

Wider diameter of L50 wheels

They allow to raise the cutting heigth by 8mm.



Allarme

Nel caso di furto il robot che ha installato questo accessorio emette un suono per attirare l'attenzione.
NB: La Zucchetti non si assume nessuna responsabilità in caso di furto.

Alarm

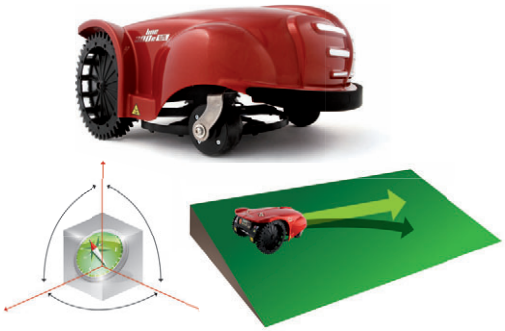
In case the robot gets stolen, this device makes a sound in order to get noticed.
NB: Zucchetti does not hold any responsibility in case of theft.

GPRS / SMS

Grazie al modulo GPRS/SMS, si possono ricevere messaggi con report giornaliero sul proprio cellulare. Il robot sarà sotto controllo in qualsiasi momento della giornata.

GPRS / SMS

Thanks to the GPRS/SMS module, you can get a daily report via SMS. The robot will be all day long under your control.



CUBO

Questo modulo con tre sensori tridimensionali (magnetometro, giroscopio e accelerometro) permette al robot di tenere sotto controllo la traiettoria nelle pendenze.

Cubo

This module composed of three 3D sensors (magnetometer, gyroscope and accelerometer) allows the robot to keep straight direction on slope.
